PROFESSIONAL SUMMARY

Motivated Computer Science student at UET Mardan with a strong foundation in C/C++, OOP, and Linux system administration. Hands-on experience with Docker, CI/CD (Jenkins), Python scripting, and DevOps tooling. CCNA-certified (pending exam) with expertise in networking, IT infrastructure, and system administration. Actively building toward a DevOps → DevSecOps → AWS career path through real deployed projects and self-directed learning.

EDUCATION

University of Engineering & Technology Mardan

B.Sc. Computer Science: Department of Computer Science

2024 – Present

MM College and Coaching Academy Mardan

Intermediate (12th Grade): BISEM

Percentage: 90.42%

Army Public School and College System

Matriculation: Federal Board Islamabad

Percentage: 84%

TECHNICAL SKILLS

Programming & Development

- C / C++ (Proficient) / STL
- Python (Scripting & Automation)
- Object-Oriented Programming (OOP)
- Git / GitHub (Version Control)
- LaTeX (Technical Writing)

Tools & Software

- VS Code
- Docker / Docker Compose
- Jenkins (CI/CD)
- WPS / MS Office Suite
- LibreOffice

DevOps & Cloud

- Docker: containers, Compose, multistage builds
- Jenkins: CI/CD pipeline setup
- AWS (self-study: IAM, EC2, S3)
- Linux Admin (Ubuntu, Fedora, Kali)

System Administration & IT

- Linux Administration (Ubuntu Pro, KDE, Fedora, Kali)
- System Administration (Certified: Metapi Academy/NAVTC)
- Networking & IT Infrastructure
- CCNA / Networking Fundamentals
- Network Configuration & Diagnostics

Soft Skills

- Team Leadership & Coordination
- Problem Solving Under Pressure
- Public Speaking & Presentation
- Technical Documentation

EXPERIENCE

Team Leader: Student Management System

University of Engineering and Technology Mardan

2026 – Present

- Led a team in designing and implementing a full Student Management System using C/C++ and OOP principles
- Managed task distribution, sprint planning, and code integration across team members
- Applied data structures, file handling, modular design, and class hierarchies throughout development
- Presented project progress to faculty; received positive evaluation for architecture and code quality

SYSTEM ADMINISTRATION & IT INFRASTRUCTURE

- Proficient in Linux-based system administration: Ubuntu, KDE Plasma, Fedora, and Kali environments
- Hands-on experience with Docker (containers, Compose, multistage builds, monitoring)

- CI/CD pipeline setup with Jenkins on Fedora using Docker CE
- Hands-on experience with network configuration, IP addressing, and basic routing concepts
- Studying CCNA-level networking: OSI model, TCP/IP, subnetting, VLANs, and switching fundamentals
- Skilled in hardware/software troubleshooting, OS installation, and system maintenance
- Familiar with DevOps principles and infrastructure concepts; actively seeking internship experience

RELEVANT COURSES

- | | |
|---------------------------------------|------------------------|
| – C / C++ Programming / STL | – Digital Logic Design |
| – Object-Oriented Programming | – Data Structures |
| – Operating Systems | – Database Systems |
| – Discrete Mathematics | – Assembly Language |
| – Calculus 1, 2, & 3 / Linear Algebra | |

CERTIFICATIONS & ACHIEVEMENTS

IT & Networking

- Computer Networking (CCNA Fundamentals)
- System Administration (Certified: Metapi)
- DevOps (Self-Study: Docker, Jenkins, Python)
- MS Office Suite
- UET Launchpad 2026

Academic Honours

- 3.72 GPA: 3rd in class, 2nd Semester 2026
- Best Academic Performance in College: 4th Position, July 2025
- Best Academic Performance in 11th Grade: 3rd Position, 2025
- Speech Competition Certificate 2025
- Stage Performance Certificate: College 2025
- Best Teacher Helper Award: School, March 2019

EXTRA-CURRICULAR & INTERESTS

- AI / Robotics: hands-on exploration and tinkering with emerging technologies
- Competitive Programming: active participation in coding competitions
- Reading: Psychology, Philosophy (Fyodor Dostoevsky, Albert Camus, Nietzsche, Marcus Aurelius) & Poetry
- DevOps Internship: actively seeking opportunity to gain industry experience
- Problem Solving Under Pressure: trained through academic and competition environments
- Swimming, Soccer and Teaching
